

COVID-19 ACCESS CONTROL SCREENING SOLUTIONS

As organizations adapt to the “new normal” of administering both safe and secure access to their properties, Securitas is delivering COVID-19 crisis-specific expertise that is immediately available.

COVID-19 presents both immediate and longer-term challenges to businesses attempting to make their workplaces accessible and safer to their employees and visitors. These access challenges will continue to evolve as information on COVID-19, regulations, and public expectations progress in the weeks and months ahead.

In response, Securitas Canada Ltd. has developed and deployed an extensive knowledge base of best practices for **COVID-19 access control screening**. These practices are based on Securitas' COVID-19 specific experiences, across dozens of diverse industries and hundreds of clients, including numerous Fortune 500 health care, manufacturing, consumer products and technology firms.

The Securitas COVID-19 knowledge library is comprised of information collected from our broad network of field managers and more than 8,000 well-trained security guards who have been on the front lines since day one of the crisis. Our leaders and field teams rely on, and continually contribute to, this dynamic, ever evolving library of COVID-19 screening practices and protocols.

The access control screening solutions Securitas Canada Ltd. is providing span a broad range of services, from screening layout configurations through legal compliance considerations and beyond. More broadly, Securitas also continues to offer Mobile and Remote Guarding Services which can limit on-site presence, while still delivering highly effective security.

Dynamic best practices and protocols. Specialty-trained officers. Site-specific expertise. Securitas Canada Ltd. is deeply and uniquely positioned to address your COVID-19 access control screening needs now. If you think Securitas can assist you, we would welcome the opportunity to talk and explore measures that will make your workplace safer.
